EXPERIENCE

Sekai he Boka — *Remote* | Marketing & UX Researcher

Jan 2023 – Present

- Implemented and maintained Shopify landing pages with responsive design and SEO optimization.
- Collaborated on UX and product presentation improvements to support higher conversion rates.

Kyodo News Images — *Tokyo, Japan* | Creative Producer / Growth Lead

Dec 2018 – Aug 2022

- Managed and coordinated 50+ digital content and campaign projects across creative and business teams.
- Used Google Analytics and user behavior data to improve landing page performance and CTR.

Locondo — Tokyo, Japan | E-commerce Growth Specialist / Sales

Apr 2015 – Nov 2018

- Sales Growth: Contributed to a 250% year-over-year sales increase through data-driven UI improvements and promotional strategies.

Projects

HSS Sea Scout Website — Team Project | GitHub: [\[link\]](#) | Demo: [\[link\]](#) | Jun 2026

- Contributed to a responsive, multilingual website for the HSS Sea Scout organization in Stockholm.
- Developed an interactive map and supported site navigation to improve usability and user experience.
- Implemented image animations and various smaller reusable UI components to enhance the website's visual experience and functionality.
- Collaborated with team members using Git/GitHub throughout the development process.

World Time Clock | GitHub: [\[link\]](#) | Demo: [\[link\]](#) | Jun 2026

- Designed and developed an interactive world clock that lets users manipulate time and compare multiple time zones visually.
- Built with React, Vite, TypeScript, Tailwind CSS, and Luxon for time-zone handling.
- Implemented a time slider, up to four synchronized time zones, dynamic time-of-day UI, and responsive layouts for mobile and desktop.

Japanese Font Explorer "Moji-Lab" | GitHub: [\[link\]](#) | Demo: [\[link\]](#) | Mar 2026

- Developed a font exploration platform enabling users to preview and filter Japanese typefaces in real time for branding, web, and creative design inspiration.
- React, JavaScript (ES6+), CSS Modules, Material UI

Tvättstugan Bokningstavla | GitHub: [\[link\]](#) | Demo: [\[link\]](#) | May 2026

- Created a digital laundry room booking board inspired by Swedish apartment systems, allowing users to manage and persist reservations through an intuitive interface.
- [Next.js](#), React, TypeScript, Tailwind CSS

Language

- **Japanese:** Native
